

PRESS RELEASE

PRELIMINARY INJUNCTION PROHIBITING EUROBENT FROM MANUFACTURING TILTEX™ IN POLAND UPHELD FOR THIRD TIME

30TH JULY 2021

A fresh attempt by Eurobent Sp.z.o.o. to set aside the preliminary injunction that prohibits, within Poland, the manufacture, offering, importing and putting Tiltex™ on the market has failed. **The Regional Court in Legnica on 8 June 2021 once again dismissed Eurobent's motion for setting aside the preliminary injunction order. This is the third time Eurobent has failed to overturn the preliminary injunction.** This decision is to the subject of a further appeal.

Eurobent is the manufacturer of Tiltex™ (a sand cement filled GCL marketed as a GCCM). Tiltex™ is also marketed by other companies under their own branding.

Pursuant to patent infringement proceedings instituted by Concrete Canvas Technology Ltd. against Eurobent in Poland for infringement of patent PL/EP 2027319, Eurobent has been restrained by preliminary injunction from manufacturing, offering and marketing for sale Tiltex™ in Poland since April 2018. The preliminary injunction remains in force. **It remains illegal under the terms of the preliminary injunction for Eurobent to manufacture Tiltex™ in Poland.**

Notwithstanding the preliminary injunction being in place, Eurobent has an outstanding judgment against it for **PLN 4,500,000 (€1,000,000)** awarded in favour of Concrete Canvas Technology Ltd. in respect of violations of the preliminary injunction by Eurobent on 18 occasions by continuing to ship orders from its factory in Poland. Eurobent's appeal of this award was rejected by the court of the 2nd Instance, although the decision is the subject of a further appeal.

The main patent infringement action against Eurobent continues.

Concrete Canvas wish to reiterate that they will robustly seek to enforce their intellectual property rights where they are being infringed by a manufacturer, distributor or otherwise. Such enforcement will occur at a time and in a jurisdiction where Concrete Canvas can best accomplish its objectives. Patents exist to protect and encourage investment in innovation. It is in all of our interests to respect the law, including patent law.
